

When was your last telecoms audit?

Every month, 5 Rings Telecom audit the telecoms for businesses across the country, resulting in thousands of pounds worth of savings. On average, we reduce costs for customers by over 30%.

The process is very simple from your point of view. All we need are:

- **Copies of recent bills and contract expiry dates relating to:**
 - Telephone lines, calls (along with any itemised billing)
 - Broadband
 - Systems and maintenance
 - Mobiles

Once we have this information we can analyse your current services. We then produce a full report which details exactly what you are currently paying for and identifies areas for potential savings.

This is a completely **free service**

Post-audit you are under no obligation to use us for your telecoms, however customers who have switched to 5 Rings Telecom enjoy the following benefits:

- **5 Rings Telecom have no contracts**
 - This means that you are free to move at any time without penalty (a genuinely unique proposition in the Telecoms industry).
- **High levels of service**
 - As we have no contracts, we provide exceptional levels of service in order that customers choose to stay with us.
- **Continually competitive prices**
 - When we negotiate reductions from our suppliers we pass these savings on to our customers.

In addition to this, we advise customers on a wide range of matters including issues with current suppliers, the OFCOM complaints procedure and contracts.

We can also provide testimonials from a wide range of customers
